GERMAN 2

Summer Session II
August 3rd – Sept 11th

MTWRF 10-11:40 am

This course balances all language skills: speaking, listening comprehension, reading and writing. We will work on vocabulary, grammar and language structures using a variety of learning games to practice also critical thinking. You will learn the language through music and film, poems and clips of everyday life in Germany. That way you will understand the history and culture of Germany.

At the end of the quarter you should be able to listen to conversations or film clips and understand the basic content, read and understand short authentic texts, engage in simple conversations on everyday topics and write about life and culture in the German-speaking countries.
